

## **SentriLock Celebrates 20 Years as Official Lockbox Solution of the National Association of REALTORS®**

**CINCINNATI– August 29, 2023**– SentriLock, a leading provider of electronic lockbox solutions for the real estate industry, is celebrating a milestone in 2023 with 20 years as the official lockbox solution of the National Association of REALTORS® (NAR).

SentriLock began when Scott Fisher, founder and CEO of SentriLock, with his partners, was working on improving the existing lockbox solution used by real estate agents. As the first working prototypes were being assembled, NAR made the decision to respond to member dissatisfaction of having only one lockbox solution and purchased majority interest in SentriLock. SentriLock and its new lockbox made its debut at the NAR Leadership Summit in August 2003 and, with its return to the Summit this year, SentriLock celebrates 20 years as the NAR’s official lockbox solution allowing REALTORS® to “Unlock their potential”.

Over the years, the world and technology has changed significantly. The addition of Bluetooth® technology and hundreds of new lockbox system features since its founding has enhanced its products and the ability to secure properties better than ever. Built to last, some of the first lockboxes are still in use while the latest lockbox, SentriGuard®, provides state-of-the-art access and information technology.

“The past 20 years have been an incredible realization of distinguishing ourselves through our products, technology and services,” said Fisher. “But the most important part is our singular and unwavering commitment to being aligned to only one thing – securing the future for REALTORS®.”

To learn more about SentriLock and its 20<sup>th</sup> anniversary, take a look at this [video](#).
